Lines Demir was born from the collaboration of leading names in the industry, pooling their connections and expertise. This partnership stemmed from the desire to provide rapid and effective solutions to the growing needs of the market. By combining their experiences and connections in the sector, the company was established to gain a competitive advantage in global trade and has rapidly become one of the leading firms in the industry.

About Us

Our versatile capabilities span various industries, including ***Automotive, Machinery Subindustry, Vehicle and Conference Seating Systems, Smart Board Systems, Shelf Systems (Storage-Market Shelves), Trailer Systems, Indoor and Outdoor Furniture Components, Domestic appliances and Industrial Kitchen Equipment, Agricultural Machinery, Renewable Energy Systems, Parking Systems, Steel Construction and Transportation Cases.*** We take pride in our unique ability to create bespoke solutions, producing any type of metal product that fits within our advanced machine park.

As evidenced by our certification in DIN ISO 9001:2015, we adhere to the highest quality standards. LINE DEMIR is a forward-thinking producer, utilizing cutting-edge technology to deliver prompt and innovative solutions.

Leveraging a skilled team and state-of-the-art machinery, we specialize in Laser Works, Sheet Metal Forming, Welding, Surface Coating, CNC works, and External Machining Services. Our contemporary machines ensure the production of top-quality, precision metal products.

Our vision and capability

Our Mission

Lines Demir has adopted the mission of contributing to the success of our customers by providing them with high-quality products and services. Our primary goal is to supply the solutions they need to compete effectively in the global markets and to be a reliable business partner.

Our Vision

As Lines Demir, we aspire to continually adapt to the evolving and changing world economy, persistently offering the best service to our customers, and maintaining our leadership position in global trade. With our focus on innovation, quality, and customer satisfaction, we aim to uphold and strengthen our pioneering position in the industry.

Key Features of LINES DEMIR

> Diverse Metal Offerings

Extensive range of metal, steel, and aluminum products, including engraving.

> Global Excellence

Cost-effectiveness, high-quality products in the global market.

> Experienced Team

Wealth of knowledge possessed by our experienced staff members with years of industry expertise.

> Advanced Technology

Fast and top-quality goods that are produced using the latest technology machines.

> Certification

Products with certificates of delivery and materials within specified measurements.

> Swift Communication

Prompt response, demonstrating our commitment to efficient customer service.

LINES

LINES DEMIR is specialized in producing all kinds of metal products that are compatible with our advanced machinery park, guided by the motto of "**Crafting Excellence**." Offering comprehensive solutions for your metal processing needs, aiming to meet the requirements of its customers with expertise in manufacturing metal products.

LASER CUTTING

CNC LASER

2×4 KW

2×2 KW CO2

Max. processing thickness:

Steel: up to 30mm

Stainless steel: up to 15mm

Aluminum: up to 15mm

LASER TUBE & PROFILE CUTTING MACHINE

Maximum Diameter 220 mm

Laser cutting power up to 3 kW

Thickness ranging from 0.8 mm to 10 mm

Fully automatic Loading and Unloading.

MOLDING

CNC MACHINE

PRESS MOLD

PRESS BREAK MOLD

SHEET FORMING

PRESS BREAK MACHINE

Powerful press brakes with a maximum capacity of 150 tons

Bending Capacity from 8mm to 3 meters

Material lengths ranging up to 3000 mm

Efficient manufacturing of individual parts, small and large series alike

PRESS MACHINE

Hydraulic presses ranging from 10 to 315 tons

Precision and reliability in every punch

SHEET FORMING

PIPE BENDING MACHINE

Bending capacity of 400 Different Diameters and Radii

FLATTENING AND DE-STRESSING MACHINE

Leveling sheets with thickness from 1 to 15 mm

SAW CUTTING

COLUMN-LINEAR GUIDED SAW MACHINE

Capacity 90° (mm)

Round	300 Ø
Square	300*300
Rectangle	300*370

CIRCULAR SAW MACHINE

Round Material Diameter (max.):
105 mm

Square Material (max.):
85 x 85 mm, 80 x 80 mm

Rectangular Material (max.):
120 x 60 mm, 90 x 60 mm

WELDING

MIG/MAG

TIG

ROBOTIC WELDING

SURFACE COATING

CATAPHORETIC COATING

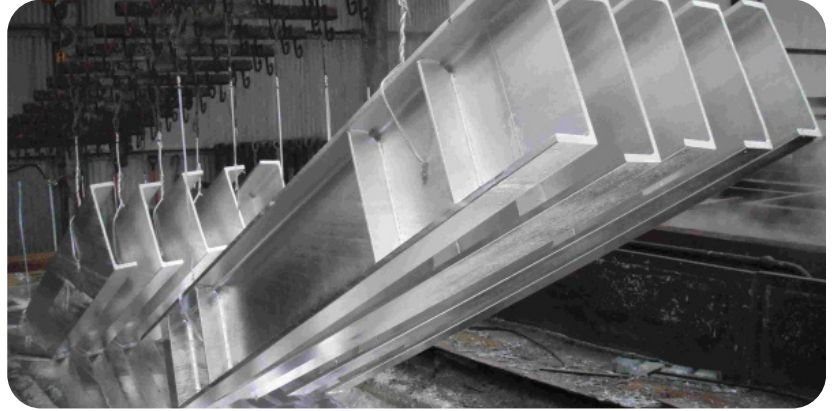

ZINC COATING

SURFACE COATING

**HOT DIP
GALVANIZING**

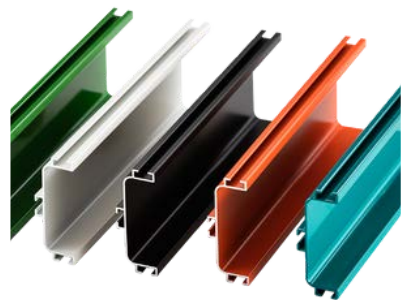

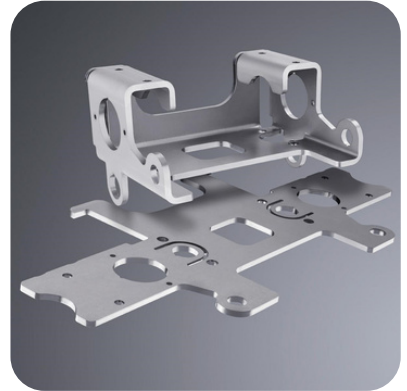

**ELECTROSTATIC
POWDER COATING**

**SANDBLASTING
